OPERATION MERCY

Partnering to build hope, capacity and community

RESTORE HOPE, GROW CAPACITY, PROMOTE COMMUNITY

Operation Mercy is an international relief and development organization with over 30 years of experience. We are a community of professionals who serve the poor and marginalized through an array of community development and humanitarian aid projects.

Operation Mercy's approach to development work is transformational – impacting the whole person and community and bringing lasting change in all areas of life.

Our vision is to work in partnership with others to restore hope, grow capacity, and promote community through relief and development initiatives that help transform lives, including our own.

Our core values are human dignity, integrity, humility, compassion, faith and religious freedom. In and through these values, we strive for inclusive and equal participation of all people in our communities, projects, teams, and leadership.

We work primarily in Central Asia, the Middle East and North Africa. We aim to be bridge-builders and peacemakers, approaching individuals with hearts of faith and trust, along with an attitude of learning. This mindset, together with our long-term strategies and focus on cultural and language acquisition, has made us an organisation that is respected and successful in community development, even in these often-neglected regions and their complex settings.
